BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to

Journal Mission and Scope

The Condor: Ornithological Applications is an international, peer-reviewed journal that publishes original research, syntheses, and assessments that address ornithological applications in two ways: the application of scientific theory and methods to the conservation, management, and ecology of birds; and the application of ornithological knowledge to conservation and management policy and other issues of importance to society. The journal aims to reach both research ornithologists and practitioners.

Topics addressed in the journal include:

- Population biology, including threats to bird populations
- Conservation genetics
- Community and landscape ecology
- Ecosystem-level influences of birds
- Effects of habitat alteration and fragmentation
- Avian responses to climate change
- Anthropogenic effects on genetics, behavior, or physiological processes
- Biology of avian diseases and disease transmission by birds
- Birds in urban or agricultural settings
- Sociological and economic studies related to birds or the discipline of ornithology
- Integrative and cross-disciplinary studies
- Theoretical and methodological advances in practice
- Evaluations of science relevant to issues in conservation and management
- Thematic reviews and opinion pieces

Journals of the American Ornithological Society

The American Ornithological Society publishes two peer-reviewed, international journals of ornithology. *The Condor: Ornithological Applications* focuses on applied ornithological study. *The Auk: Ornithological Advances* focuses on basic ornithological science. The redefined, separate missions of the journals in 2014 has created an opportunity for them to work together to publish the best science in basic and applied ornithology and to build on their long histories as top journals in the field of avian biology.

On the Cover: Black-chested Sparrow (*Peucaea humeralis*) an endemic bird of west-central Mexico, singing at the seasonal forest edge. In this issue, Vázquez-Reyes et al. (pp. 275-288) discuss how native and alien species using anthropogenic habitat can drive biotic homogenization in tropical seasonal forests. Photo credit: Leopoldo D. Vázquez-Reyes

Journal Information: The Condor: Ornithological Applications publishes original research, syntheses, and assessments that address ornithological applications in two ways: the application of scientific theory and methods to the conservation, management, and ecology of birds; and the application of ornithological knowledge to conservation and management policy and other issues of importance to society. Appropriate topics include documentation, analysis, and interpretation of laboratory and field studies; theoretical or methodological advances in practice; and reviews of information or ideas. Contributions are welcomed from around the world but must be written in English. The Condor was published from 1899 to 2016 by the Cooper Ornithological Society, and as of 2016 is published by the American Ornithological Society (a merger of the American Ornithologists' Union and the Cooper Ornithological Society). The Condor became The Condor: Ornithological Applications in 2014. The articles in this journal reflect the research and opinions of the individual authors. As such, the articles do not necessarily reflect the opinions of the editors or any official policy of the American Ornithological Society.

Submit manuscripts online at www.editorialmanager.com/condor. Author instructions are at americanornithologypubs.org/page/instructions.

Copying and permissions notice: Persons seeking to obtain rights and permission to reprint papers, figures, tables, etc., or parts thereof, previously published in The Condor and The Condor: Ornithological Applications should contact the Journals Office at pubs@AmericanOrnithology.org

Abstracting and Indexing: Articles appearing in The Condor: Ornithological Applications are abstracted and indexed in the databases listed online at www.aoucospubs.org/page/mission.

The Condor: Ornithological Applications (ISSN 0010-5422) is published quarterly by the American Ornithological Society, 1400 S Lakeshore Drive, Chicago, IL 60605. Periodicals postage paid at Chicago, IL, and at additional mailing offices. POSTMASTER: Send address changes to The Condor: Ornithological Applications, American Ornithological Society, 1400 S Lake Shore Drive, Chicago, IL 60605. Printed quarterly by Allen Press on Forest Stewardship Council® certified paper.

American Ornithologists' Union: Scott Lanyon (2014–2016), Susan M. Haig (2012–2014), John Faaborg (2010–2012), Erica H. Dunn (2006–2008), James A. Kushlan (2004–2006), Fred Cooke (2002–2004), John W. Fitzpatrick (2000–2002), Frank B. Gill (1998–2000), Richard C. Banks (1994–1996), Frances C. James (1984–1986), Wesley E. Lanyon (1976–1978)

Cooper Ornithological Society: Martin Raphael (2015–2016), Frank R. Moore (2013–2015), Kimberly A. Sullivan (2011–2013), Mercedes S. Foster (2009–2011), Thomas E. Martin (2007–2009), John T. Rotenberry (2005–2007), Bonnie S. Bowen (2003–2005), Terry Rich (2001–2003), Glenn Walsberg (1999–2001), J. Michael Scott (1997–1999), Sheila Mahoney (1995–1997), Lloyd Kiff (1993–1995), Martin L. Morton (1991–1993), Jared Verner (1989–1991), Russell P. Balda (1987–1989), C. John Ralph (1985–1987), Dennis Power (1978–1981), Stephen M. Russell (1976–1978)

Any person interested in avian biology may become a member of the American Ornithological Society. Regular membership costs \$85 per year; student memberships are \$30. Membership is \$30 for persons in all countries except the United States, Canada, Israel, Japan, Australia, New Zealand, and the following Western European countries: Iceland, Norway, Sweden, Finland, Denmark, Germany, The Netherlands, Belgium, Luxembourg, France, the United Kingdom, Ireland, Switzerland, Austria, Italy, Spain, and Portugal. All members receive access to the online version of The Auk: Ornithological Advances and The Condor: Ornithological Applications and the bimonthly Ornithological Newsletter. Quarterly print versions of both journals can be ordered by members for \$40/year. A life membership is \$2880, paid in one sum or four annual installments of \$720. Individuals may join, renew memberships, and report changes of address through the Ornithological Societies of North America (OSNA): the OSNA Member Portal; osnamembers@gmail.com; (312) 883-4670.

AOS is grateful to receive contributions of any amount. Donations help support AOS's programs to advance ornithology as a profession and promote ornithologists at every career stage. Contributions may be sent to: AOS, 1400 S. Lake Shore Drive, Chicago, IL, 60605; or, can be made online through AOS's website, Americanornithology.org. Gifts to the AOS are tax-deductible to the full extent permitted by law.

The Ornithological Societies of North America (OSNA) handles institutional subscriptions: (312) 883-4670, osnamembers@gmail.com. See www.osnabirds.org for single-issue and subscription orders, claims information, and mail dates. Domestic claims for nonreceipt of issues should be made within 90 days of the mail date; overseas claims within 180 days.
