BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

Aims and Scope of the Journal

Journal of Coastal Research, an International Forum for the Littoral Sciences, is dedicated to all aspects of coastal research. These include geology, biology, geomorphology (physical geography), climate, littoral oceanography, hydrography, coastal hydraulics, environmental (resource) management, engineering, and remote sensing. Although each field functions effectively within its own purview, the cross-disciplinary nature of coastal studies requires familiarity with other fields as well. Hence, the scope of topics is necessarily broad in order to address the complexity of coastal biophysical and socio-economic interactions. Because of the wide range of interrelated topics, the journal invites original contributions and manuscripts dealing with theory, methodology, techniques, and field or applied topic studies on interdisciplinary coastal issues.

The journal encourages the dissemination of knowledge and understanding of the coastal zone by promoting cooperation and communication between specialists in different disciplines. Natural scientists, for example, are encouraged to collaborate with professionals in other fields to prepare contributions relating to the coastal zone that foster increased appreciation of coastal environments and processes. By means of this journal, with its scholarly and professional papers, systematic review articles, book and symposia reviews, communications and news, and special topical issues, an international forum for the development of integrated coastal research is provided.

Advertising, Editorial, and Subscription Information

Advertising and Editorial Office: All advertising and editorial correspondence should be sent to Dr. Charles W. Finkl, Editor-in-Chief, Journal of Coastal Research, 5130 NW 54th Street, Coconut Creek, FL 33073, U.S.A. PHONE: 828-333-2300. E-MAIL: cfinkl@cerf-jcr.com

Subscription Information: The *Journal of Coastal Research* is a bimonthly publication. Calendar-year (2015) print and online subscription prices for the JCR are: \$115.00 for US CERF members / \$125.00 for International CERF members (\$95.00 for online only), and \$519.00 for US institutions / \$541.00 for International institutions (\$437.00 for online only). Additional surface charges may apply to subscribers located outside of the USA. For additional membership and subscription forms and information, please go to www.CERF-JCR.org. To obtain a membership or subscription form by mail, please send request to Journal of Coastal Research, P.O. Box 7065, Lawrence, KS 66044. Back Issues and Special Issues of the JCR, when available, can be directly purchased at www.CERF-JCR.org.

The *Journal of Coastal Research* is currently surveyed in *Applied Science & Technology Abstracts*; *Applied Science & Technology Index* (H.W. Wilson); *Aquatic Sciences & Fisheries Abstracts*; *BIODATA*; *Biological Abstracts*; *BIOSIS Previews* (Thomson); *CAB International Abstracts* (CABI); *CSA Civil Engineering Abstracts* (ProQuest); *Current Awareness in Biological Sciences* (Elsevier); *Current Contents/Agriculture, Biology, & Environmental Sciences* (Thomson); *Ecology Abstracts* (ProQuest); *Environmental Sciences & Pollution Management*; *GeoAbstracts* [Geographical Abstracts: Physical Geography; Ecological Abstracts; Geological Abstracts; *GEOBASE*] (Elsevier); *GeoRef*; *Meteorological & Geostrophical Abstracts* (ProQuest); *Oceanic Abstracts* (ProQuest); *Oceanographic Literature Review* (Elsevier); *Physical Sciences Digest* (CSA, Ebsco); *Pollution Abstracts* (ProQuest); *Referativnyi Zhurnal*; *Science Citation Index*; *SciSearch* (Thomson); *SCOPUS*; *Water Resources Abstracts* (Bethesda); *Zoological Record* (Thomson).

Coastal Segment along Tranrossan Bay, Donegal, Ireland. Tranrossan Bay is located in Donegal on Ireland's exposed northwest coast. The bay faces west into the prevailing swell, which together with a 3.5 m spring tide range maintains a wide tide-modified beach with low tide rips. This view shows the beach at high tide with waves breaking across the 150 m wide low gradient surf zone. While the main beach and surf zone are sandy, the small beaches in the foreground are composed of cobbles with a sand surf zone. One hundred and fifty meter high Gortnalughoge mountains, composed of metamorphic rocks, dominate the left horizon, with a township of the same name located in its lee. (Photograph taken 18 September 2013 by Andrew D. Short, School of Geosciences, University of Sydney, Australia.)

Carl H. Hobbs, III	Giovanni Randazzo	

CERF Society Information

The Coastal Education and Research Foundation [CERF] is a nonprofit society dedicated to the advancement of the coastal sciences. The Foundation is devoted to the multi-disciplinary study of the complex problems of the coastal zone. The purpose of CERF is to help translate and interpret coastal issues for the public and to assist professional research and public information programs. The Foundation specifically supports and encourages field and laboratory studies on a local, national, and international basis. Through the medium of scientific publications, television, and radio CERF brings accurate information to the public and coastal specialists on all aspects of coastal issues in an effort to maintain or improve the quality of shoreline resources.

Because CERF is concerned with broad environmental issues, our efforts concentrate on significant problems such as maintenance of good quality (potable) water with adequate supply, and hazards associated with potential beach erosion, flooding, and susceptibility of developed shorelines to storm surge and wave attack. By focusing attention on these potential man-made and natural hazards, it is hoped that our research efforts will help others improve the quality of life in diverse coastal areas. CERF thus aims to stimulate awareness of coastal (marine and freshwater shorelines) land and water problems; initiate and foster research and innovation to promote long-term coastal productivity; establish an educational forum for the debate of contentious coastal issues; and develop new principles and approaches for enlightened coastal management, and encourage their adoption and use.

□ CERF MEMBERSHIP □

Members are individuals that support the aims of the foundation through personal and group efforts or by donations. Memberships are available in different categories with privileges.

Subscription information is available online at www.cerf-jcr.org. Subscriptions office: Allen Press, Inc., P.O. Box 1897, Lawrence, KS 66044, U.S.A. CERF@allenpress.com

Editor-in-Chief

Charles W. Finkl Ph.D., CSci, CMarSci, FIMarEST, CPGS, CPSSc, PWS, M.ASCE

Dr. Charles W. Finkl is President and Executive Director of the Coastal Education & Research Foundation [CERF], publisher of the JCR. Charlie, a founding editor of the *Journal of Coastal Research*, has served as Editor-in-Chief for the past 30 years. He is a Research Professor in the Department of Geosciences at Florida Atlantic University in Boca Raton, Florida. He received his Bachelor and Master of Science degrees from Oregon State University and the Ph.D. from the University of Western Australia. He is a member of more than 20 professional societies and has published more than 200 professional papers, books, and reports. He is a Chartered Marine Scientist (CMarSci) [Institute of Marine Engineering, Science and Technology], Certified Professional Geological Scientist (CPGS) [American Institute of Professional Geologists (AIPG)], Certified Professional Soil Scientist (CPSSc) [American Registry of Certified Professionals in Agronomy, Crops, and Soils], and a Professional Wetland Scientist (PWS) [Society of Wetland Scientists]. Charlie has field experience in parts of the USA, Caribbean area, Brazil, Honduras, Russia, South Africa, Western Europe, Australasia, and South Pacific islands. He is also the Series Editor of the Encyclopedia of Earth Sciences Series that is published by Springer (Germany). There are more than twenty-eight volumes in the Series and about twenty-five are available online. Charlie also serves on the Editorial Board of the *International Journal of Environmental Studies* (Routledge) and is an occasional peer reviewer for many other professional journals.

Charlie has interests and expertise in the general areas of surficial geology, coastal and marine geomorphology (including coastal classification), coastal/marine biophysical environments, exploration geochemistry, soils and weathering (regolith geology), coastal zone management and engineering applications or impacts on natural systems (including erosion control and shore protection), coastal hydrology including submarine freshwater and mineralized seeps, subaerial and marine structural geology, natural hazard mitigation in coastal zones, marine environments and coastal wetland protection and restoration, and remote sensing (e.g., land cover classification in coastal wetlands, advection-diffusion turbidity plumes in coastal waters, delineation of bottom types and sand resources), effluent disposal and pollution of wetlands and estuaries, water resources mapping and conservation, time series studies of wetland hydroperiod and soil moisture.

Official Meeting of CERF International Coastal Symposium (ICS)

The International Coastal Symposium (ICS) was originally set up by Per Bruun (deceased) and Charlie Finkl as the official meeting of the Coastal Education & Research Foundation (CERF), with one of the first meetings being held in Hilton Head, South Carolina, in 1993. After the repeated success of these meetings, CERF moved the ICS to the international scene holding these conferences in conjunction with local sponsors in Australia, Brazil, Iceland, New Zealand, Northern Ireland, Poland, and Portugal. The ICS brings together delegates from all over the world to collaborate and discuss the most current coastal research studies and projects. During the ICS 2014, which was held in Durban, South Africa, a grand celebration took place to mark the 30th Anniversary of CERF and the JCR. Our next ICS meeting is scheduled for March of 2016 in Sydney, New South Wales, Australia. For more information, please visit www.cerf-jcr.org.

CONTENTS

RESEARCH PAPERS

Coastal Mangrove Squeeze in the Mekong Delta.....	Linh K. Phan, Jaap S.M. van Thiel de Vries, and Marcel J.F. Stive	233
Ecological Correlates of Green Turtle (<i>Chelonia mydas</i>) Abundance on the Nearshore Worm Reefs of Southeastern Florida.....	Melanie Stadler, Michael Salmon, and Charles Roberts	244
Origin and Holocene Evolution of a Slightly Submerged Tidal Notch in the NE Adriatic.....	Niki Evelpidou, Paolo Antonio Pirazzoli, and Giorgio Spada	255
Interannual Variability of Two Offshore Sand Banks in a Region of Extreme Tidal Range.....	M.J. Lewis, S.P. Neill, and A.J. Elliott	265
Mapping Coastal Information across Canada's Northern Regions Based on Low-Altitude Helicopter Videography in Support of Environmental Emergency Preparedness Efforts.....	Valerie Wynja, Anne-Marie Demers, Sonia Laforest, Mélanie Lacelle, Jon Pasher, Jason Duffe, Bhavana Chaudhary, Huili Wang, and Tom Giles	276
Wave Refraction Pattern and Littoral Sediment Transport along the SE Tamilnadu Coast, India.....	S. Saravanan and N. Chandrasekar	291
Migration History and Habitat Use by Javelin Goby <i>Synechogobius hasta</i> as Inferred from Otolith Sr : Ca Ratios	Sun Wan Hwang, Keun Hyung Choi, Hakbin Hwang, Chong Kwan Kim, and Tae Won Lee	299
Multiscale Burrow Site Selection of Gopher Tortoises (<i>Gopherus polyphemus</i>) in Coastal Sand Dune Habitat	Anthony Lau and C. Kenneth Dodd Jr.	305
Changes in Macrobenthic Faunal Community during Succession of a Mangrove Forest at Zhanjiang, South China	Quan Chen, Jing Li, Limin Zhang, Hongfang Lu, Hai Ren, and Shuguang Jian	315
Evaluation of Two Spectral Wave Models in Coastal Areas.....	Marta Gonçalves, Eugen Rusu, and C. Guedes Soares	326
Modelling the Impacts of Mangrove Vegetation Structure on Wave Dissipation in Ben Tre Province, Vietnam, under Different Climate Change Scenarios.....	Nguyen Thi Kim Cuc, Tomohiro Suzuki, Erik D. de Ruyter van Steveninck, and Hoang Hai	340
Remote Sensing of Irregular Breaking Wave Parameters in Field Conditions.....	Bryson Robertson, Kevin Hall, Ioan Nistor, Richard Zytner, and Curt Storlazzi	348
A Model to Simulate Yacht Movements in Enclosed Bays.....	Ash Numanoglu Genç	364
Monitoring Loss and Recovery of Salt Marshes in the Liao River Delta, China.....	Mingming Jia, Zongming Wang, Dianwei Liu, Chunying Ren, Xuguang Tang, and Zhangyu Dong	371
Seasonality of Ichthyofauna Bycatch in Shrimp Trawls from Different Depth Strata in the Southern Brazilian Coast	Jorge Luiz Rodrigues-Filho, Joaquim Olinto Branco, Herbert Silva Monteiro, José Roberto Verani, and João Pedro Barreiros	378
A Spatial and Seasonal Pattern of Water Quality in the Sundarbans River Systems of Bangladesh.....	S.M. Bazlur Rahaman, Md. Sayadur Rahaman, Alokesh K. Ghosh, Dhiman Gain, Sudhin K. Biswas, Lipton Sarder, Shikder S. Islam, and Ashkar B. Sayeed	390
Seasonal Nitrate Algorithms for the Southwest Bay of Bengal Water Using <i>in situ</i> Measurements for Satellite Remote-Sensing Applications	Ranjit Kumar Sarangi, Thirunavukarasu Thangaradjou, Durairaj Poornima, Ramalingam Shanthi, Ayyappan Saravana Kumar, and Thangavel Balasubramanian	398
A Tale of Two Ports: Dinoflagellate and Diatom Communities Found in the High Ship Traffic Region of Galveston Bay, Texas (USA)	Jamie L. Steichen, Alexandra Denby, Rachel Windham, Robin Brinkmeyer, and Antonietta Quigg	407
Numerical Simulation for Wave Breaking on Bar/Step-Type Beach Profile	Tai-Wen Hsu, Chih-Min Hsieh, Chin-Yen Tsai, and Shan-Hwei Ou	417
Preliminary Assessment of Submerged Beachrock and Tsunamiogenic Deposit, Hasır Island, Marmara Archipelago, Turkey	Ahmet Ertek, Elçin Kılıç, Ahmet Evren Erginal, Yunus Levent Ekinci, and Alper Demirci	428
Sea Surface Temperature Trends in the Coastal Zone of British Columbia, Canada	Carl L. Amos, S. Martino, T.F. Sutherland, and T. Al Rashidi	434
Hydrodynamics and Flushing of Coffin Bay, South Australia: A Small Tidal Inverse Estuary of Interconnected Bays.....	Jochen Kämpf and Henry Ellis	447
Habitat Use Patterns of <i>Chelon haematocheilus</i> , as Revealed by Sr:Ca Ratios in Otoliths.....	Sun Wan Hwang, Tae Won Lee, Sun Do Hwang, Eun Kyung Lee, and Jae Myung Yoo	457
Long-Term Shoreline Change at Kailua, Hawaii, Using Regularized Single Transect	Tiffany R. Anderson, L. Neil Frazer, and Charles H. Fletcher	464
Impact of Sea-Level Rise on Saltwater Intrusion in the Pearl River Estuary.....	Rui Yuan, Jianrong Zhu, and Biao Wang	477

TECHNICAL COMMUNICATIONS

Geospatially Integrated Seafloor Classification Scheme (G-ISCS): A New Method for Cognitively Interpreting Benthic Biogeomorphological Features.....	Christopher Makowski, Charles W. Finkl, and Heather M. Vollmer	488
