News from the PRC and *Lundellia*

The Billie L. Turner Plant Resources Center

We are proud to announce that the Board of Regents of The University of Texas has approved a resolution to rename the Plant Resources Center the *Billie L. Turner Plant Resources Center* in honor of his years of service to The University of Texas and the Plant Resources Center. Under his Directorship, 1958 -1998, the collections increased from ca. 200,000 to a million specimens, in part due to the acquisition of the Lundell Herbarium (LL). Turner also oversaw the move of the collections into the Texas Tower at the center of the university campus. During his years as a faculty member he served as major advisor of 85 graduate students, many of whom have gone on to productive careers in plant systematics. The acronyms for the herbaria will remain the same: TEX for The University of Texas Herbarium and LL for specimens from the Lundell Herbarium housed together with those of TEX.

Lundellia to Become Digital

This issue of *Lundellia* will be the last published in hard copy format. The Editorial Board unanimously voted to begin publishing electronically beginning with Volume 21 (2018). *Lundellia* will be served by BioOne as an Open Access journal.

New Editor for *Lundellia*

Also beginning in 2018, the editorship of *Lundellia* will be taken over by Dr. Jose L. Panero. Dr. Simpson assumed the Editorship from Dr. Carol Todzia with Volume 3 and was responsible for Volumes 3-20. For information about publication in future volumes of *Lundellia*, authors should contact Dr. Panero at: panero@utexas.edu.
