Acknowledgements

The success of this Rapid Assessment Program (RAP) survey and the Initial Biodiversity Assessment and Planning (IBAP) project was due to the support, enthusiasm and cooperation of a number of individuals and organizations. Special thanks to Alcoa's Anita Roper, Eric Black, Pat Grover, John Gardner, Ibrahima Danso and Nènè Ousmane Sow for their strong commitment to incorporating biodiversity conservation into their planning for a refinery in Guinea; without their leadership this project would not have been possible. Particular thanks are given to Ibrahima Danso and Nènè Ousmane Sow for the support, lodging accommodations and warm hospitality extended to the scientific team while in Kamsar and for their logistical support surrounding the BAP workshop. We are grateful to Alcoa/Alcan for their financial support of this RAP survey and publication.

The RAP participants would like to express thanks to Mamadou Saliou Diallo, Kolon Diallo and Guinée-Ecologie for their hard work organizing the logistics and their continued support throughout this project in northwestern Guinea. We wish to thank M. Dansa Kanté, Governor of Boké, for his official support and assistance during the RAP survey. The Prefet of Boké and Sub-Prefets of Kolaboui, Kamsar and Sangaredi provided important administrative support and assistance, without which this expedition would not have been possible. Additionally, we are thankful for the help of the President of CRDs of Kamsar and Sangaredi for providing local authorities support. Many thanks are due to Mme Christine Sagno, National Director Eaux & Forêts, for issuance of the collection and export permits. M. Soumah, Director Eaux & Forêts and the two Chefs de Cantonnement of Kamsar and Sangaredi provided invaluable assistance and help in the field. Special thanks to M. Namory Keita, National Director Protection de la Nature, for facilitating the official letter of mission that helped make our survey work in Guinea possible. We are also grateful to Secretary General Kadiatou N'Diaye of the Ministry of Environment and to Secretary General Alimou Diallo of the Ministry of Mines and Geology for their opening and closing remarks at the Biodiversity Action Plan (BAP) workshop that followed the RAP survey.

Special thanks to Moussa Soumah, our cook, who catered to our diverse appetites and provided the RAP team with sustenance and energy to carry out our field work. We are deeply indebted to Sidi Mohamed Diawara and Mory Keita, our drivers, whose navigation skills and patience guided us safely through rough terrain.

We wish to thank CI's Center for Environmental Leadership in Business (CELB), particularly Assheton Carter and Marielle Canter, for facilitating the collaboration with ALCOA and their consultant, Environ. We also thank Neil Daetwyler of Environ consulting firm for facilitating the initial steps of the IBAP collaboration. Many thanks are also due to Jessica Donovan and Olivier Langrand of CI's Africa and Madagascar Division and David Knox of CI's Center for Applied Biodiversity Science (CABS) for their support and participation in the delivery of various aspects of this project. We also owe thanks to Leslie Kasmir and Amy Heinemann of the RAP program, to Mark Denil and Kellee Koenig of CI's Conservation Mapping Program and to Kim Meek and Glenda Fábregas for their endless patience in designing RAP Bulletins.

Additionally, we express our thanks to many members of the RAP team for their dedication, inspiration, hard work and pleasant companionship. Many thanks to Peter Hoke, Jennifer McCullough and Leslie Kasmir of Conservation International's RAP program for their outstanding logistical support.

The crustacean team would like to thank Piotr Naskrecki and field guides Obaka Demba Bangoura, Ansoumana Keita, Suleman Scylla, Saliou Scylla, Sana Camara, Seny Camara, Ismail Camara, and Maa Diou Bah, for their help with the collection of specimens. We express many thanks to Conservation International's Rapid Assessment Program for its support and dedication. We would also like to thank the following guides from the local communities who were very helpful during the survey: Mohamed Keita, Abdulai Kamara, Ansumana Bangura, Umar Kamara, Abdulai Bah.
