

Index

- alpine ash *see Eucalyptus delegatensis*
- Australian Low Rainfall Tree Improvement Group (ALRTIG) 2, 25, 26
- Autumn gum moth (*Mnesampela privata* (Guenee)) 164, 166, 168

- biological control of insect pests 178–9
- black walnut *see Juglans nigra*
- blue gum *see Eucalyptus globulus*
- branch cankers 159
- breeding objectives 29–30
- brutian pine *see Pinus brutia*

- cankers 159
- carbon 220
- carbon credits 227–8
- catchment processes, protecting 101
- chemical control of insect pests 177
- Chinchilla gum *see Eucalyptus argophloia*
- Christmas beetles (*Anoplognathus* spp.) 164, 165
- climate 7–9
 - and water use 77–86
- Casuarina cunninghamiana* 59, 62, 63, 76, 82, 117
- Casuarina glauca* 59, 64, 65, 117, 118, 202
- clone 5, 20, 27, 28, 30, 34, 40, 41, 58, 60, 61–2, 66–7, 70, 117, 119, 177
- collar rot 159
- Corymbia maculata* (spotted gum)
 - back sawing 190
 - Deniliquin irrigation management project 137, 142, 143, 144, 152–3
 - fresh water irrigation 143
 - genetic gains 42
 - genetic variation 25
 - groundwater uptake 91
 - growth 11, 15, 20
 - low to medium rainfall 26, 27, 30–1
 - natural branch shedding 192
 - plantation hardwoods 210
 - plantation water 76
 - pulpwood 204
 - salinity tolerant 59
 - tree age 201
 - tree factors and water use 95–6
 - tree improvement 42
 - waterlogging tolerant 59
 - water use 152–3
- Corymbia citriodora* ssp. *variegata* (spotted gum) 25, 26, 30–1
- costs of plantation-grown trees 216–19

- defoliation
 - impact on tree growth 170–6
 - implications of effects 175–6
 - repeated 171–5
 - single 171
- Deniliquin irrigation management project 137–8
- deterministic vs stochastic results 224–5
- design, plantation 99
- disasters of plantation-grown trees 219–20
- diseases 157–63
 - branch, stem and twig cankers 159
 - collar rot 159
 - foliar 158–9
 - plantation management 160
 - root 159
 - of unknown aetiology 160
 - wood decay fungi 159–60
- discharge, sites with 225–6

- economics of plantation-grown trees 213–20
 - carbon 220
 - costs 216–19
 - deterministic vs stochastic results 224–5
 - disasters 219–20
 - environmental service payments 226–7
 - equity and efficiency 230–1
 - prices 215–16
 - sites with irrigation or discharge 225–6
 - stochastic analyses 220–4
 - yields 216
- effluent irrigation 3, 62, 68, 70, 76, 78, 81, 87–8, 92, 97, 118, 123, 127–8, 129–30, 135–7, 139, 143, 147–9, 154, 200–1, 237, 238
 - see also* Wagga Wagga Effluent Plantation Project
- environmental effects, pulpwood 200
- environmental service payments 226–7
- establishment, plantation 99
- Ettamogah 115, 119, 128
- Eucalyptus argophloia* (Chinchilla or western gum) 10
- Eucalyptus camaldulensis* (river red gum)
 - canopy conductance 80, 81, 86
