

## Acknowledgments

We thank the following for comments on the manuscript: Ann Fallon, Ralph Holzenthal, Scott Lanyon, William Miller, and Robert Zink. Julian Donahue, Ian Kitching and John Brown's comments provided consistency and clarification. Ralph Holzenthal provided RBS with extensive advice on scientific illustration; Michael Pogue provided photographic assistance. We thank Julian Donahue for additional help and advice on euchromiine nomenclature. This project would not have been possible without the loan of material. We thank the following curators for the use of their specimens: James Miller, Eric Quinter (AMNH); Norman Penny (CAS); John Rawlins (CMNH); James Leibherr (CUIC); Richard Gaedike (DEI), Jerry Powell (EMEC); Jacqueline Miller (FSMC); Julian Donahue (LACM); Joel Minet (MNHP); David Carter, David Goodger (NHM); Martin Loedel (MNHW); Michael Pogue (NMNH); David Mann (OXUM); Renk de Jong (RMNH); Ralph Holzenthal (UMSP); Hans Strümpel (ZMH); Wolfram May (ZMHB); Monica Malcher (ZMPA). We thank Charles Covell (University of Kentucky) and Henry Hespenheide (University of California, Los Angeles) for use of their personal collections. This work was supported by the following: NSF grant (DEB 9306755, DEB9981416; SJW), NSF Dissertation Improvement Grant (DEB 9706192; RBS), and Dayton Wilkie Natural History Award (Bell Museum of Natural History; RBS).
