The BioOne Digital Library (<https://bioone.org/>) provides worldwide distribution for more than 580 journals and eBooks from BioOne's community of over 150 nonprofit societies, research institutions, and university presses in the biological, ecological, and environmental sciences. The BioOne Digital Library encompasses the flagship aggregation BioOne Complete (<https://bioone.org/subscribe>), the BioOne Complete Archive (<https://bioone.org/archive>), and the BioOne eBooks program offerings ESA eBook Collection (<https://bioone.org/esa-ebooks>) and CSIRO Publishing BioSelect Collection (<https://bioone.org/csiro-ebooks>).

---

BioOne is an innovative nonprofit that sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common

|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| The Water Penetration and Repellency of Feathers Revisited<br>ARIE M. RIJKE AND WILLIAM A. JESSER . . . . .                                                                                                                                               | 245 |
| Tamarisk Biocontrol Using Tamarisk Beetles: Potential Consequences for Riparian Birds in the Southwestern United States<br>EBEN H. PAXTON, TAD C. THEIMER, AND MARK K. SOGGE . . . . .                                                                    | 255 |
| Distributional Changes of Landbird Species in Agroecosystems of Central Argentina<br>MARIANO CODESIDO, CARLOS GONZÁLEZ-FISCHER, AND DAVID BILENCA . . . . .                                                                                               | 266 |
| Effects of Regional Cold Fronts and Localized Weather Phenomena on Autumn Migration of Raptors and Landbirds in Southwest Idaho<br>ROBERT A. MILLER, JAY D. CARLISLE, AND GREGORY S. KALTENECKER. . . . .                                                 | 274 |
| Plasma Metabolites and Mass Changes of Migratory Landbirds Indicate Adequate Stopover Refueling in a Heavily Urbanized Landscape<br>CHAD L. SEEWAGEN, CHRISTINE D. SHEPPARD, ERIC J. SLAYTON, AND CHRISTOPHER G. GUGLIELMO. . .                           | 284 |
| Testing Competing Hypotheses for Chronology and Intensity of Lesser Scaup Molt during Winter and Spring Migration<br>MICHAEL J. ANTEAU, ANDREA C. E. ANTEAU, AND ALAN D. AFTON . . . . .                                                                  | 298 |
| The Influence of Fine-Scale Habitat Features on Regional Variation in Population Performance of Alpine White-tailed Ptarmigan<br>BRADLEY FEDY AND KATHY MARTIN . . . . .                                                                                  | 306 |
| Parental Behavior Controls Incubation Period and Asynchrony of Hatching in Magellanic Penguins<br>GINGER A. REBSTOCK AND P. DEE BOERSMA . . . . .                                                                                                         | 316 |
| The Gray Hawk ( <i>Buteo nitidus</i> ) Is Two Species<br>BRIAN A. MILLSAP, SERGIO H. SEIPKE, AND WILLIAM S. CLARK . . . . .                                                                                                                               | 326 |
| Migration and Wintering Areas of Glaucous-winged Gulls from South-Central Alaska<br>SCOTT A. HATCH, VERENA A. GILL, AND DANIEL M. MULCAHY . . . . .                                                                                                       | 340 |
| Effects of Gypsy Moth Outbreaks on North American Woodpeckers<br>WALTER D. KOENIG, ERIC L. WALTERS, AND ANDREW M. LIEBHOLD . . . . .                                                                                                                      | 352 |
| Resin-Barrier Maintenance as a Mechanism of Differential Predation among Occupants of Red-cockaded Woodpecker Cavities<br>JOHN J. KAPPES JR. AND KATHRYN E. SIEVING . . . . .                                                                             | 362 |
| Multiscalar Ecological Characterization of Say’s and Eastern Phoebe and Their Zone of Contact in the Great Plains<br>JOHN M. SCHUKMAN, ANDRÉS LIRA-NORIEGA, AND A. TOWNSEND PETERSON . . . . .                                                            | 372 |
| Complex Biogeographic History of <i>Lanius</i> Shrikes and Its Implications for the Evolution of Defenses against Avian Brood Parasitism<br>BRIAN D. PEER, CARL E. MCINTOSH, MICHAEL J. KUEHN, STEPHEN I. ROTHSTEIN,<br>AND ROBERT C. FLEISCHER . . . . . | 385 |
| Black-capped Chickadees Select Spotted Knapweed Seedheads with High Densities of Gall Fly Larvae<br>CHRISTOPHER N. TEMPLETON . . . . .                                                                                                                    | 395 |
| Influence of Condition and Habitat Use on Survival of Post-Fledging Songbirds<br>ANDREW C. VITZ AND AMANDA D. RODEWALD . . . . .                                                                                                                          | 400 |
