MANUSCRIPT REVIEWERS FOR 2016 (VOLUME 70)

This year the Journal is honored to acknowledge the contributions of 87 reviewers, representing 20 countries and 34 states within the United States. The contributions of these reviews significantly improved the quality of the manuscripts published in 2016 and the Society is thankful for the time and energy spent to perform reviews. The Journal's continued success owes a great deal to the rigorous reviews provided by Lepidopterists worldwide. Names are listed in alphabetical order, by first name.
