BioOne is an innovative nonprofit that sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

## Corrigendum: Molecular phylogenetics and morphology reveal the *Plettkea* lineage including several members of *Arenaria* and *Pycnophyllopsis* to be a clade of 21 South American species nested within *Stellaria* (*Caryophyllaceae*, *Alsineae*)

Daniel B. Montesinos-Tubée<sup>1,2</sup> & Thomas Borsch<sup>1</sup>

Version of record first published online on 6 March 2025.

**Keywords:** Bolivia, molecular phylogeny, new species, Peru, *Plettkea*, *Pycnophyllopsis*, South America, *Stellaria*, taxonomic treatment

**Palabras clave:** Bolivia, filogenia molecular, nuevas especies, Perú, *Plettkea*, *Pycnophyllopsis*, *Stellaria*, Sudamérica, tratamiento taxonómico

**Citation:** Montesinos-Tubée D. B. & Borsch T. 2025: Corrigendum: Molecular phylogenetics and morphology reveal the *Plettkea* lineage including several members of *Arenaria* and *Pycnophyllopsis* to be a clade of 21 South American species nested within *Stellaria* (*Caryophyllaceae*, *Alsineae*). – Willdenowia 55: 27. <https://doi.org/10.3372/wi.55.03>

### Corrections

The following corrections are necessary to our article on the *Plettkea* lineage of *Stellaria* L. (S. sect. *Plettkea* (Mattf.) Montesinos & Borsch) published in Willdenowia on 21 December 2023 (Montesinos-Tubée & Borsch 2023).

Pages 121–127, Results, Discussion: corrections to the text are provided here as Supplementary appendix S1 (deleted text in red strikethrough, inserted text in blue underline).

Page 125, Fig. 4, Bayesian ITS tree: the tree was published with incorrect values for the maximum likelihood bootstrap percentages, which exactly repeated the values for the parsimony jackknife values. The corrected tree is provided here as Supplementary appendix S2.

Page 145, right column, Supplementary appendix S5: replace “ML and MP strict consensus trees” with “MP strict consensus tree”. Only an MP tree was included in Supplementary appendix S5 of the published article.

Page 145, right column, Supplementary appendix S8: replace “ML and MP strict consensus trees” with “MP strict consensus tree”. Only an MP tree was included in Supplementary appendix S8 of the published article. An ML tree is provided here as Supplementary appendix S3.

### Acknowledgements

We thank an anonymous reviewer for highlighting inaccuracies in the published article and for recommending the corrections presented here.
