The BioOne Digital Library (<https://bioone.org/>) provides worldwide distribution for more than 580 journals and eBooks from BioOne's community of over 150 nonprofit societies, research institutions, and university presses in the biological, ecological, and environmental sciences. The BioOne Digital Library encompasses the flagship aggregation BioOne Complete (<https://bioone.org/subscribe>), the BioOne Complete Archive (<https://bioone.org/archive>), and the BioOne eBooks program offerings ESA eBook Collection (<https://bioone.org/esa-ebooks>) and CSIRO Publishing BioSelect Collection (<https://bioone.org/csiro-ebooks>).

Your use of this PDF, the BioOne Digital Library, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Digital Library content is strictly limited to personal, educational, and non-commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne is an innovative nonprofit that sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

A Journal of Bryology and Lichenology

THE BRYOLOGIST

Mosses in Japanese Gardens

VOLUME 125
NUMBER 1
SPRING 2022

American
Bryological and
Lichenological
Society

CONTENTS

125(1): 1–218

RESEARCH ARTICLES

- 1 Lloyd R. Stark, Joshua L. Greenwood and John C. Brinda
How to dry a bryophyte: A review and experimental test of four methods to induce desiccation tolerance
- 23 Sébastien Meilleur, Mélina Guéné-Nanchen, Sandrine Hugron, Nicole J. Fenton and Line Rochefort
Towards the regeneration of brown mosses for fen restoration
- 36 Douglas Ladd and Caleb A. Morse
A new species of *Phaeocalicium* (Mycocaliciaceae) on black walnut in central North America
- 43 Ryne Douglas Rutherford and Alan Rebertus
A habitat analysis and influence of scale in lichen communities on granitic rock
- 61 Yoshitaka Oishi
Why are the aesthetics of modest mosses highly valued in Japanese gardens?
- 70 Bruce McCune, Sunia Yang, Sarah Jovan and Heather T. Root
Climate and epiphytic macrolichen communities in the Four Corners region of the U.S.A.
- 91 James C. Lendemer, Frank Bungartz, Caleb Morse and Erin A. Manzitto-Tripp
Sarcogyne similis (Acarosporaceae) produces psoromic acid and is confirmed to be widespread in North America
- 102 Lars Hedenäs
Potentially misleading phylogenetic signal and its explanation in single species studies – contrasting *Loeskytnum badium*, *Sarmentypnum exannulatum* and *Warnstorfia fluitans*
- 115 Paul Wilson and Lena Ayala Coleman
Niches and guilds of bryophytes along a 3000-meter elevational gradient
- 135 Tian-Xiong Zheng and Masaki Shimamura
Taxonomic reevaluation of the Japanese *Marchantia* taxa belonging to sect. *Papillatae* of subg. *Chlamidium* (Marchantiaceae)
- 148 Wei Sheng, Shan-shan Dong, Yang Liu, Wen-zhang Ma and Yu-Huan Wu
Sciaromiopsis sinensis (Amblystegiaceae), revised to a member of *Brachythecium* (Brachytheciaceae)
- 157 Daphne Fisher Stone and Bruce McCune
Two new hairy *Leptogium* (Collemataceae) species from western North America
- 170 Bruce McCune, Matthias Schultz, Terry Fennell, Alfredo Passo and Juan Manuel Rodriguez
A new endemic, *Pannaria oregonensis*, replaces two misapplied names in the Pacific Northwest of North America

RECENT LITERATURE

- 186 John J. Atwood and William R. Buck
Recent literature on bryophytes—125(1)
- 205 James C. Lendemer
Recent literature on lichens—264

BOOK REVIEW

- 215 Michael Burghardt
A new liverwort and hornwort flora for the northern Andes
