BioOne Complete ([complete.BioOne.org](https://complete.BioOne.org)) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at [www.bioone.org/terms-of-use](https://www.bioone.org/terms-of-use).

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

---

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

## CONTENTS

### RESEARCH ARTICLES

#### INTERSPECIFIC INTERACTIONS

- 1 **Species-dependent effects of bird feeders on nest predators and nest survival of urban American Robins and Northern Cardinals** by Jennifer S. Malpass, Amanda D. Rodewald, and Stephen N. Matthews
- 58 **Nest niche overlap among the endangered Vinaceous-breasted Parrot (*Amazona vinacea*) and sympatric cavity-using birds, mammals, and social insects in the subtropical Atlantic Forest, Argentina** by Eugenia Bianca Bonaparte and Kristina L. Cockle

#### DEMOGRAPHY

- 17 **Female-biased sex ratio, polygyny, and persistence in the endangered Southwestern Willow Flycatcher (*Empidonax traillii extimus*)** by Barbara E. Kus, Scarlett L. Howell, and Dustin A. Wood
- 44 **Range-wide connectivity of priority areas for Greater Sage-Grouse: Implications for long-term conservation from graph theory** by Michele R. Crist, Steven T. Knick, and Steven E. Hanser
- 155 **Genetic recapture identifies long-distance breeding dispersal in Greater Sage-Grouse (*Centrocercus urophasianus*)** by Todd B. Cross, David E. Naugle, John C. Carlson, and Michael K. Schwartz

#### COMMUNICATION

- 26 **Anthropogenic noise reduces approach of Black-capped Chickadee (*Poecile atricapillus*) and Tufted Titmouse (*Baeolophus bicolor*) to Tufted Titmouse mobbing calls** by Jacob Damsky and Megan D. Gall

#### BREEDING BIOLOGY

- 34 **Factors affecting Snowy Plover chick survival in a managed population** by Stephen J. Dinsmore, Eleanor P. Gaines, Scott F. Pearson, David J. Lauten, and Kathleen A. Castelein
- 85 **Nest-site selection and nest success of an Arctic-breeding passerine, Smith's Longspur, in a changing climate** by Heather R. McFarland, Steve Kendall, and Abby N. Powell

#### SURVEY METHODS

- 73 **Sound attenuation in forest and roadside environments: Implications for avian point-count surveys** by Daniel A. Yip, Erin M. Bayne, Péter Sólymos, James Campbell, and Darren Proppe

#### MIGRATION AND DISTRIBUTION

- 98 **Combining migration and wintering counts to enhance understanding of population change in a generalist raptor species, the North American Red-tailed Hawk** by Neil Paprocki, Dave Oleyar, David Brandes, Laurie Goodrich, Tara Crewe, and Stephen W. Hoffman
- 108 **Nonbreeding isolation and population-specific migration patterns among three populations of Golden-winged Warblers** by Gunnar R. Kramer, Henry M. Streby, Sean M. Peterson, Justin A. Lehman, David A. Buehler, Petra B. Wood, Darin J. McNeil, Jeffery L. Larkin, and David E. Andersen

#### CONSERVATION GENETICS

- 131 **Island life and isolation: The population genetics of Pacific Wrens on the North Pacific Rim** by Christin L. Pruett, Angela Ricono, Cory Sperrn, and Kevin Winker

**COMMENTARIES**

- 122 **eBird records show substantial growth of the Allen's Hummingbird (*Selasphorus sasin sedentarius*) population in urban Southern California** by Christopher J. Clark
- 143 **Testing alternative hypotheses for the cause of population declines: The case of the Red-headed Woodpecker** by Walter D. Koenig, Eric L. Walters, and Paul G. Rodewald

**BOOK REVIEWS**

- 167 *A Chorus of Cranes: The Cranes of North America and the World* by Paul A. Johnsgard, reviewed by Aaron T. Pearse
- 170 *Birds and Climate Change: Impacts and Conservation Responses* by James W. Pearce-Higgins and Rhys E. Green, reviewed by Benjamin Zuckerberg
- 172 *Birds of Montana* by Jeffrey S. Marks, Paul Hendricks, and Daniel Casey, reviewed by Jay Rotella
