BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

## CORRECTION . . .

On p. 331 of volume 29(2), "Canine parvovirus effect on wolf population change and pup survival" by L. David Mech and Sagar Goyal, corrections to Table 1 at pageproof stage were not incorporated into the published article; however, the equations and statistics on the same page were based on the corrected Table 1. The corrected Table 1 follows.

Table 1. Wolf population characteristics in the central Superior National Forest of Minnesota and results of serological tests of wolves for canine parvovirus (CPV).

|  | Percent <br> pups <br> captured <br> July to <br> November | Total <br> winter <br> wolf <br> numbers | Percent <br> change <br> in wolf <br> numbers | Percent <br> positive <br> for CPV <br> antibodies |
| :---: | :---: | :---: | :---: | :---: |
| 1979 | 47 | 54 | +17 | 20 |
| 1980 | 48 | 48 | -11 | 64 |
| 1981 | 43 | 47 | -2 | 51 |
| 1982 | 50 | 50 | +6 | 45 |
| 1983 | 50 | 35 | -30 | 35 |
| 1984 | 64 | 54 | +54 | 20 |
| 1985 | 43 | 47 | -13 | 38 |
| 1986 | 21 | 48 | +2 | 62 |
| 1987 | 72 | 59 | +23 | 37 |
| 1988 | 52 | 79 | +34 | 13 |
| 1989 | 8 | 51 | -35 | 95 |
| 1990 | 20 | 56 | +10 | 55 |

Mech (1986, unpubl.).
