The BioOne Digital Library (<https://bioone.org/>) provides worldwide distribution for more than 580 journals and eBooks from BioOne's community of over 150 nonprofit societies, research institutions, and university presses in the biological, ecological, and environmental sciences. The BioOne Digital Library encompasses the flagship aggregation BioOne Complete (<https://bioone.org/subscribe>), the BioOne Complete Archive (<https://bioone.org/archive>), and the BioOne eBooks program offerings ESA eBook Collection (<https://bioone.org/esa-ebooks>) and CSIRO Publishing BioSelect Collection (<https://bioone.org/csiro-ebooks>).

Your use of this PDF, the BioOne Digital Library, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Digital Library content is strictly limited to personal, educational, and non-commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne is an innovative nonprofit that sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

ANNOUNCEMENT

Les Mehrhoff Botanical Research Awards

The Les Mehrhoff Botanical Research Award was established in 2014 by the New England Botanical Club in memory of renowned botanist, NEBC Herbarium Curator, and long-time supporter of the New England Botanical Club, Dr. Leslie J. Mehrhoff. The award supports botanical endeavors of the sort that Les championed: field studies and herbarium, library, and archival research. The objective of NEBC in offering the award is to add to our understanding of the flora of New England and floristically related regions. Projects for which traditional funding (such as academic grants and in-house agency support) is difficult to secure are favored. More information on the Les Mehrhoff Botanical Research Award, and past recipients' project reports are available on the Club's web page.

The Les Mehrhoff Botanical Research Committee is pleased to announce the four award recipients for 2021.

2021 NEW ENGLAND BOTANICAL CLUB LES MEHRHOFF BOTANICAL RESEARCH AWARDS

Peter P. Grima

“Botanical details from the archived writings of Lorin Low Dame”

Emily T. Magleby

“Targeted surveys for *Ophioglossum pusillum* in western Massachusetts”

Matt Peters

“Vermont’s rare red cedar woodlands: are they pre-settlement forests?”
