The BioOne Digital Library (<https://bioone.org/>) provides worldwide distribution for more than 580 journals and eBooks from BioOne's community of over 150 nonprofit societies, research institutions, and university presses in the biological, ecological, and environmental sciences. The BioOne Digital Library encompasses the flagship aggregation BioOne Complete (<https://bioone.org/subscribe>), the BioOne Complete Archive (<https://bioone.org/archive>), and the BioOne eBooks program offerings ESA eBook Collection (<https://bioone.org/esa-ebooks>) and CSIRO Publishing BioSelect Collection (<https://bioone.org/csiro-ebooks>).

Your use of this PDF, the BioOne Digital Library, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at [www.bioone.org/terms-of-use](http://www.bioone.org/terms-of-use).

Usage of BioOne Digital Library content is strictly limited to personal, educational, and non-commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

---

BioOne is an innovative nonprofit that sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

## CORRECTIONS TO TWO ARTICLES . . .

I am writing to request that you include an errata in the next available issue of the *Journal of Wildlife Diseases*. Values of sodium:creatinine (Na:C) and potassium:creatinine (K:C) were presented in two articles as multiples of 100, when they actually represent multiples of 1,000.

Thus, in the following articles:

DELGIUDICE, G. D., P. R. KRAUSMAN, E. S. BEL-  
LANTONI, M. C. WALLACE, R. C. ETCHBERGER,  
AND U. S. SEAL. 1990. Blood and urinary pro-  
files of free-ranging desert mule deer in Arizona.  
*Journal of Wildlife Diseases* 26: 83–89.

DELGIUDICE, G. D., R. O. PETERSON, AND U. S. SEAL.  
1991. Differences in urinary chemistry profiles  
of moose on Isle Royale during winter. *Journal  
of Wildlife Diseases* 27: 407–416.

All summary statistics presented for Na:C  $\times$  100 and K:C  $\times$  100 in these articles actually represent Na:C  $\times$  1,000 and K:C  $\times$  1,000.

I apologize for the error and any inconvenience. This correction is obviously important for accurate and valid comparisons of data with other studies.
