The BioOne Digital Library (<https://bioone.org/>) provides worldwide distribution for more than 580 journals and eBooks from BioOne's community of over 150 nonprofit societies, research institutions, and university presses in the biological, ecological, and environmental sciences. The BioOne Digital Library encompasses the flagship aggregation BioOne Complete (<https://bioone.org/subscribe>), the BioOne Complete Archive (<https://bioone.org/archive>), and the BioOne eBooks program offerings ESA eBook Collection (<https://bioone.org/esa-ebooks>) and CSIRO Publishing BioSelect Collection (<https://bioone.org/csiro-ebooks>).

Your use of this PDF, the BioOne Digital Library, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Digital Library content is strictly limited to personal, educational, and non-commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne is an innovative nonprofit that sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

SUSTAINING MEMBERS

Sustaining members of the Wildlife Disease Association are members having particular interest in the objectives of the Association and who wish to make a significant contribution as determined by Council to support those objectives.

The Wildlife Disease Association is pleased to recognize the following sustaining member:

WILDLIFE CONSERVATION SOCIETY (WCS)

185th Street and Southern Boulevard
Bronx, New York 10460 USA

The WCS has been a sustaining member since 2000 and through a generous contribution of \$5,500/annum supports the electronic distribution of the *Journal of Wildlife Diseases* to more than 110 countries where current economic difficulties would limit *Journal* access and availability.
