BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

ANNOUNCEMENTS

CBE STYLE MANUAL

3rd EDITION, 1st PRINTING

NOW AVAILABLE

Revised extensively by the Council of Biology Editors' Committee on Form and Style, this manual has become the standard authority for the majority of biological journals. The new edition is almost triple the size of the 2nd edition and contains several new chapters, including one on how to develop a scientific article and another on style in special fields.

297 pages illustrated

\$6.00, postage and handling included.

On orders of 10 or more copies,

10% discount

American Institute of Biological Sciences

3900 Wisconsin Ave., Washington, D.C. 20016

The Council of Biology Editors was established by joint action of the NSF and AIBS. The organization was formed to foster education and improved communication in the life sciences by providing an efficient means for exchange of ideas among editors either neophyte or experienced. Membership is open to individuals who hold or have held a principal official responsibility for editorial management of continuing publications in the life sciences.

Annual dues: \$10.

Obituary

Dr. Leslie A. Stauber, 65, of 485 South Randolphville Road, Piscataway, New Jersey, died suddenly on March 27, 1973.

Dr. Stauber retired last June after 37 years' service to Rutgers University. He was a professor of parasitology and served as chairman of the Department of Zoology from 1959 to 1964 and 1965 to 1967. He was president of the American Society of Parasitologists and vice-president of the National Shellfisheries Association.

Dr. Stauber received his undergraduate and master's degrees from Rutgers. After completing his doctoral studies at the University of Chicago in 1937, he did malaria research in Panama for four years. In 1935 he joined Rutgers to do research in the diseases of oysters.

His work appeared in more than 80 publications, many dealing with aspects of the tropical disease leishmaniasis, on which his work was internationally recognized.

He is survived by his wife, Mabel; two sons, Dr. William T. and T. Nelson; a daughter, Dr. Amy Law, and a grandson.

Contributions may be made to the Graduate Research Fund in Parasitology-Zoology established recently by Dr. Stauber himself. This fund is designed to assist graduate students in conducting parasitological research as part of their degree program. Checks should be made payable to Rutgers, the State University-Stauber Fund and sent to the Department of Zoology, Rutgers University, New Brunswick, New Jersey 08903.
