

Fig. S1. Fluorescent patterns of field-collected cyprids. **(E)** *F. albicostatus*, **(L)** *F. kondakovi*, **(M)** *C. mitella*. Posterior fluorescent masses of *F. albicostatus* were present at the base of the thoracic limbs, while posterior fluorescent masses of *F. kondakovi* were present behind the base of the thoracic limbs. **(E-1)**, **(L-1)**, **(M-1)** are photographs under incident light, **(E-2)**, **(L-2)**, **(M-2)** are photographs under a fluorescent SZX-FBV filter unit. Scale bars, 100 μ m.
